Hey folks -

Next week's SAB public meeting on connectivity came up @ the 1pm senior staff. Program is saying this meeting is v technical and not expected to generate a lot of buzz outside trade press, but given context, Gwen wanted to make sure everyone was ready for it. See below.

What's the plan? Know comms has a desk statement and some materials (incl faq, I believe) from Sept.

This will be in my report shortly, but since there was a question about it I wanted to include the blurb below:

On December 16-18, EPA's Science Advisory Board expects to meet to conduct a peer review of EPA's draft report "Connectivity of Streams and Wetlands to Downstream Waters: A Review and Synthesis of the Scientific Evidence." This meeting will be held in Washington, DC and will be webcast. Public; open press.

I also will speak with Hannah for context
